

Economics, B.A.

Note about assessment plan and reports

This program is a sister program to the B.S. in Economics, which is administered through the Chaifetz School of Business. The curriculum is not entirely the same, but very similar. At this time, no distinct assessment plan for the B.A. version of the major has been developed and there are no separate assessment reports. Please see the Economics, B.S. plan and reports for additional information.
