Print all information clearly

Complete the packet without leaving blanks - put “NO” or “N/A” (not applicable) if needed

After completing the packet, please return it to OHP office

This can be done one of two ways

1. Interoffice mail – Dr. Steven Cummings – School of Medicine – Doisy Hall – Room R311
2. Scan/Email – steven.cummings@health.slu.edu

After reviewing your responses, OHP office medical staff may contact you to discuss the need for further medical evaluation

If you would like medical evaluation at any time related to potential work exposures, contact OHP office

For any questions about the Occupational Health program, contact OHP office at 314-977-7026

Saint Louis University
Occupational Health Program for Laboratory and Animal Research

Background

Regulatory and funding agencies require that Saint Louis University offer an Occupational Health Program (OHP). Each person listed on an Animal Use Protocol approved by the Institutional Animal Care and Use Committee (IACUC) must be informed about the OHP and be afforded the opportunity to participate. Prior to approval of an animal use protocol, IACUC must be able to confirm that each person listed on the protocol has been offered the OHP.

The OHP program centers around four things:

1. Medical history evaluation.
 - a. Participants are asked to complete this questionnaire to obtain information about personal health as it relates to potential work exposure to biological pathogens, recombinant DNA, and/or laboratory animals.
 - b. The OHP medical questionnaire is completed by each participant by following the INSTRUCTIONS on the front cover page.
 - c. The OHP medical questionnaire is reviewed by the OHP office with attention to animal allergies, ergonomics, and immune suppression issues.
 - d. This questionnaire may be completed at the time of hire, if work starts on a new protocol, or at intervals while working on an existing protocol.
 - e. This information will become part of the individual's OHP record. This will NOT become part of a personnel/HR record, a medical record, or a hospital record.
 - f. Instructions for returning documentation are on the front cover page.
2. Tetanus immunization every 10 years. OHP office will advise each participant should an update be needed.
3. Tuberculosis screening. OHP office will advise each participant should an update be needed.
4. Evaluation of work related injuries and illnesses.
 - a. Should a work-related injury or illness occur related to this project, the involved worker should report it immediately to their supervisor.
 - b. An Employee Report of Injury form must be completed and turned into SLU Risk Management.
 - c. The supervisor should phone ahead to advise either Concentra (314) 421-2557 or SSM Health Saint Louis University Hospital Emergency Room (314) 257-1320 of the incident and of the incoming exposed/injured worker.
 - d. The injured worker should be referred to:
Concentra Urgent Care
3100 Market Street, St. Louis, MO 63103
Hours: 8:00am to 5:00pm - Monday to Friday excluding holidays
 - e. If the work-related injury or illness occurs outside business hours or if the work-related injury is severe, the injured worker should report to the Emergency Room at SSM Health Saint Louis University Hospital. Call 911 for work injuries if needed.
If the initial treatment occurs in the ER, the injured worker MUST follow up with Concentra on the next business day.
